

ENCAMPMENT REPORTING DASHBOARD GUIDE

Homeless Solutions URL: <https://homeless-solutions.tempe.gov/>

This dashboard is best viewed in landscape mode on tablets or larger devices. Dashboards work best with **Google Chrome** as the web browser.

DASHBOARD INTERACTIVITY

Click the white arrow on the left-hand side to see more information about the data and to access the filters.

Click the arrow again to close the text box.

Clicking an item in a dashboard element (table, chart, map) will **filter** the other elements. Click the item again to clear the selection. **Note, clicking on the indicators does not filter the other elements.*

In the example below, July is selected on the chart, so the items only show data for July.

To **view an item full screen**, hover your mouse over the top right corner of that item until the expand icon appears, then click on the icon. Click the icon again to return to the normal view.

NAVIGATING THE MAP

The pop-up gives more information about the reported encampment.

There are sometimes multiple points close together. Click on the arrow at the top of the pop-up to see the next point.

Click the tabs to see a glossary of terms and more information about the dashboard.

Home: Puts map back to default view

Basemap selector: Let's you choose a different map

Legend: Tells you what the colors and symbols mean

Layer list: Let's you turn layers on and off

To filter using the map, click the filter icon in the top left of the map and select one of the options.

Point: Selects an individual point

Rectangle/Circle: Draws a box/circle around a group of points

Lasso: Draws a free form shape around a group of points

Line: Only applies when the data on the map are lines

An indicator will appear that lets you know how many points have been selected. The points will be highlighted in pink.

USING FILTERS

TIP: View the filters by activating the left-hand side panel. You can select multiple options. All components in the dashboard will be filtered to show data with your selection. Click the selected option again to clear the filter.

To **filter by status**, click the *Select a status* box, then choose the status from the dropdown menu.

To **filter by date**, click *Select a date*. Place the cursor in the “From” box and select the beginning date in the calendar. Place the cursor in the “Until” box and select the end date in the calendar. Then click out of the *Select a date* form to view the filtered data in each of the items.

Click to select clear all date filtering.

Click to select today's date only.
